Allowable Subject Matter

1. Claims 1-6, 8-20 and 22-32 are allowed.
2. The prior art of record fails to disclose or suggest features recited in the amended claims.
3. The following is an examiner's statement of reasons for allowance: The Independent claim discloses receiving an input event and determining whether a text converting component (IME) is interested in performing a conversion action. Then the component notifies an application (email, word processor etc...) of an input event by sending it a sentinel value (which is a dummy value indicating a pending text event). If the application can handle the input it sends a specific request to the text converting component to disclose the code and then it displays the converted text. For example an email application that does not support Chinese characters will accept all input once converted from the IME. But the user will see junk characters and cannot understand the message. This invention solves that problem by letting the applications themselves communicate with the IME and sending a specific request if it can handle that type of encoding, if so it displays it, so now the user can understand the message. The additional unique feature being that the application itself includes functionality so it is able to communicate with the IME with a specific request.
4. Furthermore among other features the prior art of Deleeuw and Srivastava fails to disclose this functionality within the application. Therefore the references fail to teach or suggest all the elements recited in the independent claims. Furthermore, the claimed feature would not have been obvious to a person of ordinary skill in the art at the time of the invention in view of the prior art of record. Because both Deleeuw and Srivastava fails to teach the features recited in the independent claims has described above. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
